RE: Application of Carolina Water Service, Inc. for adjustment of
rates and charges for the provision of water and sewer service

Dear Mr. Terreni:

Enclosed for filing are the original and ten (10) copies of the Application of Carolina Water Service, Inc., in the above-referenced matter. Also enclosed you will find the Applicant's proposed notice of filing and hearing. By copy of this letter, I am serving a copy of these documents upon the Executive Director of the Office of Regulatory Staff and enclose a Certificate of Service to that effect.

I would appreciate your acknowledging receipt of this Application and Certificate by date-stamping the extra copies that are enclosed and returning it to me via our courier.

If you have any questions or if you need any additional information, please do not hesitate to contact us.

Sincerely,

WILLOUGHBY & HOEFER, P.A.

PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA

DOCKETING DEPARTMENT

NOTICE OF FILING AND HEARING

DOCKET NO. 2006 -- ____-WS

CAROLINA WATER SERVICE, INC. – APPLICATION FOR ADJUSTMENT OF RATES AND CHARGES FOR THE PROVISION OF WATER AND SEWER SERVICE.

Carolina Water Service, Inc. (CWS or the Company) has filed an Application with the Public Service Commission of South Carolina (the Commission) for an adjustment of the Company's rates and charges and modification of certain terms and conditions for the provision of water and sewer service. CWS is a public utility, as defined by S.C. Code Ann. § 58-5-10(3) (Supp. 2004), providing water and sewer service to the public for compensation in certain areas of South Carolina pursuant to rates approved by the Commission in Docket No. 2004-357-WS.

Pursuant to S.C. Code Ann. § 58-5-240 (Supp. 2004) and 26 S.C. Code Ann. Regs. 103-712.4.A and 103-512.4.A (Supp. 2004), the Company requests that the Commission approve an increase in its monthly water and sewer service.

In support of its request for an adjustment in the Company's water and sewer rates, terms and conditions CWS asserts, among other things, that the proposed water and sewer rate increases are necessary in order that it may provide reasonable and adequate service to its customers, comply with standards and regulations set by the Department of Health and Environmental Control and other governmental agencies which regulate the environmental aspect of the Company's business, and earn a reasonable return on its investment and attract capital for future improvements. The Company also asserts that the proposed water and sewer rate increases are necessary to preserve its financial integrity and to permit continued investment in and maintenance of its facilities so as to provide reliable and high quality services.

THE PROPOSED CHANGES IN THE RATES AND CHARGES ARE SET FORTH BELOW
(The complete rate schedule is available from the Company at the address below and on the Commission's website at www.psc.state.sc.us)

DOCKET NO. _____-W/S

IN RE:

Application of Carolina Water Service,
Inc. for adjustment of rates and charges
for the provision of water and
sewer service.

APPLICATION

Carolina Water Service, Inc. ("Applicant" or "Company") would respectfully show unto,
and request of, the Commission as follows:

BACKGROUND

1. Applicant is a corporation organized and existing under the laws of the State of Delaware and authorized to do business in the State of South Carolina.
2. Applicant is a public utility, as defined by S.C. Code Ann. § 58-5-10(3) (Supp. 2003), providing water and sewer service to the public for compensation in certain areas of South Carolina pursuant to rates approved by the Commission in Docket No. 2004-357-W/S.
3. All communications or inquiries regarding this Application should be directed as set forth below:

a. **Applicant's Representative:**

Mr. Steven M. Lubertoizzi
Vice President
Regulatory Matters
Utilities, Inc.
2335 Sanders Road
Northbrook, Illinois 60062-6196

Just 1

b. **Legal Counsel:**

John M. S. Hoefer, Esquire
Willoughby & Hoefer, P.A.
Post Office Box 8416
Columbia, South Carolina 29202-8416
803-252-3300

REQUEST FOR RATE RELIEF AND RATE SCHEDULE MODIFICATIONS

4. Pursuant to S.C. Code Ann. § 58-5-240 (Supp. 2005) and 26 S.C. Code Ann. Regs. RR. 103-712.4.A (1976, as amended) and 103-512.4.A (Supp. 2005), Applicant requests that the Commission approve an increase in its monthly water and sewer service charges as set forth in the eight (8) page rate schedule attached hereto and incorporated herein by this reference as Exhibit "A."

SUPPORTING DOCUMENTATION

5. Applicant proposes a test year of October 1, 2004 to September 30, 2005 and has prepared certain financial statements relating to that time period in support of the Application, which statements are attached hereto and incorporated herein by this reference as Exhibit "B," pages 1 through 11. These financial statements include the following:

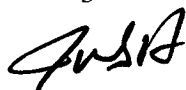

- a. Balance Sheet (Schedule A),
- b. Current and pro forma income and expense statements (Schedule B), and
- c. Rate base and resulting rate of return calculations based upon proposed rates (Schedule C).¹

¹These calculations are for informational purposes only as Applicant will submit evidence with respect to proper returns on equity and rate base at hearing.

Applicant also submits, as Exhibit "B" pages 12 through 18, the following information in support of the Application:

- d. Water and sewer consumption analyses (Schedule D)
 - e. Water and sewer proposed revenues (Schedule E)
 - f. Schedule of current and projected customers (Schedule F)
6. Attached hereto and incorporated herein by this reference as Exhibit "C" are the most recent approval letter(s) from the South Carolina Department of Health and Environmental Control ("DHEC").
7. Attached hereto and incorporated herein by this reference as Exhibit "D" is the Company's current customer bill form.
8. There is on file with this Commission a performance bond given to satisfy the requirements of S.C. Code Ann. § 58-5-720 (Supp. 2005).
9. A map depicting Applicant's current service area is on file with the Commission.
10. The financial statements, the other documents submitted herewith, and the references to documents on file with the Commission are offered to comply with Commission Rules R. 103-512.4 and R. 103-712.4 and to provide information useful to the Commission in considering the reasonableness of the proposed rate schedule.²

²Because Applicant utilizes a composite depreciation rate of 1 ½%, no depreciation schedule by categories of plant or average service lives exists. The Applicant will, of course, make available during the audit in this case copies of the Company's depreciation workpapers.

A handwritten signature in black ink, appearing to be "J. A. Smith" or similar, written in a cursive style.

**NEED AND JUSTIFICATION FOR RATE RELIEF
AND RATE SCHEDULE MODIFICATIONS**

11. Applicant submits that the proposed water and sewer rate increases are necessary in order that it may provide reasonable and adequate service to its customers. The rates proposed are also necessary to comply with standards and regulations set by DHEC and other governmental agencies which regulate the environmental aspects of Applicant's business. Applicant further submits that the proposed rates are necessary to enable it to earn a reasonable return on its investment and to attract capital for future improvements. Said rates will preserve the financial integrity of the Applicant, promote continued investment in and maintenance of its facilities, and thereby permit Applicant to continue providing reliable and high quality water and sewer services. The Applicant would note that the amount of rate relief requested in the within Application may be lower depending upon the outcome of the Applicant's petition for judicial review of Commission Order Nos. 2005-328 and 2005-465 in Docket No. 2004-357-W/S.

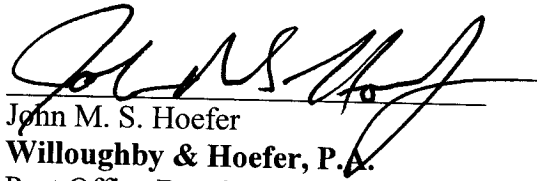

REQUEST FOR RATE BASE TREATMENT

12. Applicant further submits that given its substantial plant investment, and specifically the rate base reflected on Schedule C of Exhibit "B," Applicant is entitled to have the reasonableness of its proposed rates determined in accordance with the rate of return on rate base methodology. Accordingly, Applicant requests rate base treatment in this proceeding.

WHEREFORE, having fully set forth its Application, Carolina Water Service, Inc. prays that the Commission approve the rates proposed and grant to Applicant such other and further relief as the Commission may deem just and proper.

Columbia, South Carolina
This 27th day of March, 2006.

EXHIBIT "A"
PROPOSED RATE SCHEDULE

CAROLINA WATER SERVICE, INC.

SCHEDULE OF RATES AND CHARGES
WATER

1. Monthly Charges

Residential

Base Facilities Charge per single family
house, condominium, mobile home
or apartment unit:

\$ 11.61 per unit

Commodity Charge:

\$3.55 per 1,000
gallons or 134 cft

Commercial

Base Facilities Charge
by meter size:

5/8" meter	\$ 11.61
1"	\$ 29.02
1.5"	\$ 58.04
2"	\$ 92.86
3"	\$174.12
4"	\$290.20

Commodity Charge:

\$3.55 per 1,000
gallons or 134 cft

Charges for Water Distribution Only

Where water is purchased from a government body or agency or other entity
for distribution and resale by the Company, the following rates apply:

Residential

Base Facilities Charge per single family
house, condominium, mobile home
or apartment unit:

\$11.61 per unit

Commodity charge:

\$2.03 per 1,000
gallons or 134 cft

Commercial
Base Facilities Charge
by meter size:

5/8" meter	\$ 11.61
1"	\$ 29.02
1.5"	\$ 58.04
2"	\$ 92.86
3"	\$174.12
4"	\$290.20

Commodity charge: \$2.03 per 1,000
gallons or 134 cft

The Utility will also charge for the cost of water purchased from the government body or agency, or other entity. The charges imposed or charged by the government body or agency, or other entity providing the water supply will be charged to the Utility's affected customers on a pro rata basis without markup. Where the Utility is required by regulatory authority with jurisdiction over the Utility to interconnect to the water supply system of a government body or agency or other entity and tap/connection/impact fees are imposed by that entity, such tap/connection/impact fees will also be charged to the Utility's affected customers on a pro rata basis, without markup.

Commercial customers are those not included in the residential category above and include, but are not limited to hotels, stores, restaurants, offices, industry, etc.

The Utility will, for the convenience of the owner, bill a tenant in a multi-unit building, consisting of four or more residential units (or in such other circumstances as the law may allow from time to time), which is served by a master water meter or a single water connection. However, in such cases all arrearages must be satisfied before service will be provided to a new tenant or before interrupted service will be restored. Failure of an owner to pay for services rendered to a tenant in these circumstances may result in service interruptions.

When, because of the method of water line installation utilized by the developer or owner, it is impractical to meter each unit separately, service will be provided through a single meter, and consumption of all units will be averaged; a bill will be calculated based on that average and the result multiplied by the number of units served by a single meter.

2. Nonrecurring Charges

A) Water Service Connection (New connections only) \$300 per SFE*

B) Plant Impact Fee (New connections only) \$400 per SFE*

3. Account Set-Up and Reconnection Charges

a. Customer Account Charge - for new customers only.

b. All Areas \$ 13.50

b. Reconnection Charges: In addition to any other charges that may be due, a reconnection fee of thirty five dollars (\$35.00) shall be due prior to the Utility reconnecting service which has been disconnected for any reason set forth in Commission Rule R.103-732.5. Customers who ask to be reconnected within nine months of disconnection will be charged the monthly base facility charge for the service period they were disconnected. The reconnection fee shall also be due prior to reconnection if water service has been disconnected at the request of the customer.

4. Billing Cycle

Recurring charges will be billed monthly in arrears. Nonrecurring charges will be billed and collected in advance of service being provided.

5. Extension of Utility Service Lines and Mains

The Utility shall have no obligation at its expense to extend its utility service lines or mains in order to permit any customer to connect to its water system. However, anyone or any entity which is willing to pay all costs associated with extending an appropriately sized and constructed main or utility service line from his/her/its premises to any appropriate connection point, to pay the appropriate fees and charges set forth in this rate schedule, and comply with the guidelines and standards hereof, shall not be denied service, unless water supply is unavailable or unless the South Carolina Department of Health and Environmental Control or other government entity has restricted the Utility from adding for any reason additional customers to the serving water system. In no event will the Utility be required to construct additional water supply capacity to serve any customer or entity without an agreement acceptable to the Utility first having been reached for the payment of all costs associated with adding water supply capacity to the affected water system.

6. Cross Connection Inspection Fee

Any customer installing, permitting to be installed, or maintaining any cross connection between the Utility's water system and any other non-public water

system, sewer or a line from any container of liquids or other substances, must install an approved back-flow prevention device in accordance with 24A S.C. Code Ann. Regs. R.61-58.7.F.2 (Supp. 2005), as may be amended from time to time. Such a customer shall annually have such cross connection inspected by a licensed certified tester and provide to Utility a copy of a written inspection report and testing results submitted by the certified tester in accordance with 24A S.C. Code Ann. Regs. R.61—58.7.F.8 (Supp. 2005), as may be amended from time to time. Said report and results must be provided by the customer to the Utility no later than June 30th of each year. Should a customer subject to these requirements fail to timely provide such report and results, Utility may arrange for inspection and testing by a licensed certified tester and add the charges incurred by the Utility in that regard to the customer's next bill.

* A Single Family Equivalent (SFE) shall be determined by using the South Carolina Department of Environmental Control Guidelines for Unit Contributory Loadings for Domestic Wastewater Treatment Facilities -- 25 S.C. Code Ann. Regs. 61-67 Appendix A (Supp. 2005), as may be amended from time to time. Where applicable, such guidelines shall be used for determination of the appropriate monthly service and tap fee.

SCHEDULE OF RATES AND CHARGES

SEWER

1. Monthly Charges

Residential - charge per
single-family house, condominium,
villa, or apartment unit: \$42.40 per unit

Mobile Homes: \$30.47 per unit

Commercial: \$42.40 per SFE*

Commercial customers are those not included in the residential category above and include, but are not limited to, hotels, stores, restaurants, offices, industry, etc.

Charge for Sewer Collection Only

When sewage is collected by the Utility and transferred to a government body or agency, or other entity, for treatment, the Utility's rates are as follows:

Residential - per single-family house,
condominium, or apartment unit \$27.30 per unit

Commercial - per single-family
equivalent \$27.30 per SFE*

Charge for Wholesale Service (Midlands Utility) \$17.45 per SFE*

The Utility will also charge for treatment services provided by the government body or agency, or other entity. The rates imposed or charged by the government body or agency, or other, entity providing treatment will be charged to the Utility's affected customers on a pro rata basis, without markup. Where the Utility is required under the terms of a 201/208 Plan, or by other regulatory authority with jurisdiction over the Utility, to interconnect to the sewage treatment system of a government body or agency or other entity and tap/connection/impact fees are imposed by that entity, such tap/connection/impact fees will be charged to the Utility's affected customers on a pro rata basis, without markup.

The Utility will, for the convenience of the owner, bill a tenant in a multi-unit building, consisting of four or more residential units (or in such other circumstances as the law may allow from time to time), which is served by a master sewer meter or a single sewer connection. However, in such cases all arrearages must be satisfied before service will be provided to a new tenant or before interrupted service will be restored. Failure of an owner to pay for services rendered to a tenant in these circumstances may result in service interruptions.

Solids Interceptor Tanks

For all customers receiving sewage collection service through an approved solids interceptor tank, the following additional charges shall apply:

A. Pumping Charge

At such time as the Utility determines through its inspection that excessive solids have accumulated in the interceptor tank, the Utility will arrange for pumping the tank and will include \$150.00 as a separate item in the next regular billing to the customer.

B. Pump Repair or Replacement Charge

If a separate pump is required to transport the customer's sewage from solids interceptor tank to the Utility's sewage collection system, the Utility will arrange to have this pump repaired or replaced as required and will include the cost of such repair or replacement and may be paid for over a one year period.

C. Visual Inspection Port

In order for a customer who uses a solids interceptor tank to receive sewage service from the Utility or to continue to receive such service, the customer shall install at the customer's expense a visual inspection port which will allow for observation of the contents of the solids interceptor tank and extraction of test samples therefrom. Failure to provide such a visual inspection port after timely notice of not less than thirty (30) days shall be just cause for interruption of service until a visual inspection port has been installed.

2. Nonrecurring Charges

- | | | |
|----|---|----------------|
| A) | Sewer Service Connection (New connections only) | \$300 per SFE* |
| B) | Plant Impact Fee (New connections only) | \$400 per SFE* |

The nonrecurring charges listed above are minimum charges and apply even if the equivalency rating of a non residential customer is less than one (1). If the equivalency rating of a non residential customer is greater

than one (1), then the proper charge may be obtained by multiplying the equivalency rating by the appropriate fee. These charges apply and are due at the time new service is applied for, or at the time connection to the sewer system is requested.

3. Notification, Account Set-Up and Reconnection Charges

a. Notification Fee

A fee of four dollars (\$4.00) shall be charged each customer to whom the Utility mails the notice as required by Commission Rule R. 103-535.1 prior to service being discontinued. This fee assesses a portion of the clerical and mailing costs of such notices to the customers creating the cost.

b. Customer Account Charge - for new customers only.

All Areas

\$ 13.50

A one-time fee to defray the costs of initiating service. This charge will be waived if the customer also takes water service.

c. Reconnection Charges: In addition to any other charges that may be due, a reconnection fee of two hundred fifty dollars (\$250.00) shall be due prior to the Utility reconnecting service which has been disconnected for any reason set forth in Commission Rule R.103-532.4. Where an elder valve has been previously installed, a reconnection charge of thirty-five dollars (\$35.00) shall be due. Customers who ask to be reconnected within nine months of disconnection will be charged the monthly service charge for the service period they were disconnected.

4. Billing Cycle

Recurring charges will be billed monthly, in arrears. Nonrecurring charges will be billed and collected in advance of service being provided.

5. Toxic and Pretreatment Effluent Guidelines

The Utility will not accept or treat any substance or material that has been defined by the United States Environmental Protection Agency ("EPA") or the South Carolina Department of Environmental Control ("DHEC") as a toxic pollutant, hazardous waste, or hazardous substance, including pollutants falling within the provisions of 40 CFR 129.4 and 401.15. Additionally, pollutants or pollutant properties subject to 40 CFR 403.5 and 403.6 are to be processed according to the pretreatment standards applicable to such pollutants or pollutant properties, and such standards constitute the Utility's

minimum pretreatment standards. Any person or entity introducing any such prohibited or untreated materials into the Company's sewer system may have service interrupted without notice until such discharges cease, and shall be liable to the Utility for all damages and costs, including reasonable attorney's fees, incurred by the Utility as a result thereof.

6. Extension of Utility Service Lines and Mains

The Utility shall have no obligation at its expense to extend its utility service lines or mains in order to permit any customer to discharge acceptable wastewater into one of its sewer systems. However, anyone or any entity which is willing to pay all costs associated with extending an appropriately sized and constructed main or utility service line from his/her/its premises to an appropriate connection point, to pay the appropriate fees and charges set forth in this rate schedule and to comply with the guidelines and standards hereof, shall not be denied service, unless treatment capacity is unavailable or unless the South Carolina Department of Health and Environmental Control or other government entity has restricted the Utility from adding for any reason additional customers to the serving sewer system.

In no event will the Utility be required to construct additional wastewater treatment capacity to serve any customer or entity without an agreement acceptable to the Utility first having been reached for the payment of all costs associated with adding wastewater treatment capacity to the affected sewer system.

- * A Single Family Equivalent (SFE) shall be determined by using the South Carolina Department of Environmental Control Guidelines for Unit Contributory Loading for Domestic Wastewater Treatment Facilities --25 S.C. Code Ann. Regs. 61-67 Appendix A (Supp. 2005), as may be amended from time to time. Where applicable, such guidelines shall be used for determination of the appropriate monthly service and tap fee.

- [a] Water and sewer revenues are adjusted to tie to test year consumption data at test year rates.
For the first nine months of the test year, these were the rates established in Docket No. 2000-207-W/S.
For the last three months of the test year, these were the rates established in Docket No. 2004-357-W/S.
- [b] Salaries, wages and benefits are adjusted for annualization as of 09/30/05, and then adjusted for anticipated increases of 4%.
- [c] Operating expense charged to plant has been adjusted to reflect an increase in operator salaries.
- [d] Regulatory expense has been adjusted for the total estimated cost of this case, amortized over three years, in addition to the amount allowed per year in Docket No. 2004-357-W/S.
- [e] Depreciation and amortization expense are annualized to reflect actual and estimated pro forma plant additions, actual and estimated capitalized time additions, and actual and estimated general ledger plant additions at the Company's depreciation rates.
- [f] Taxes other than income are adjusted for annualized payroll taxes, utility commission taxes, and gross receipts taxes.
- [g] Income taxes are computed on taxable income at current rates.
- [h] AFUDC is eliminated for rate making purposes.
- [i] Interest on debt has been computed using a 59.1%/40.9% debt / equity ratio and a 6.42% cost of debt.
- [j] Revenues have been adjusted to reflect an entire year of consumption and billing units at present rates ordered in Docket No. 2005-357-W/S.
- [k] The amount of rate relief requested may be lower depending upon the outcome of the Applicant's petition for judicial review of Commission Order Nos. 2005-328 and 2005-465 in Docket No. 2004-357-W/S.
- [l] Uncollectible accounts have been adjusted to account for bad debt expense at proposed revenues.
- [m] Expenses related to fines and penalties have been removed for ratemaking purposes.

Carolina Water Service, Inc.
Explanation of Adjustments to Rate Base and Rate of Return

Schedule C
Page 6 of 6

- [a] Rate base is adjusted for previous rate case orders in Dockets Nos. 2000-207-WS and 2004-357-WS. Accumulated depreciation on plant adjustments has been rolled forward to reflect accumulated depreciation balances at 09/30/05.
- [b] Accumulated depreciation is adjusted to reflect actual and estimated general ledger additions, actual and estimated capitalized time additions, and actual and estimated pro forma plant additions and retirements that will all be completed by the estimated time of ORS's audit.
- [c] Cash working capital is calculated based on 1/8 of maintenance and general expenses.
- [d] A pro forma adjustment has been made to include actual and estimated capitalized time that will be completed by the estimated time of ORS's audit.
- [e] A pro forma adjustment has been made to include actual and estimated general ledger plant additions that will be completed by the estimated time of ORS's audit.
- [f] A pro forma adjustment has been made to include actual and estimated construction work in progress (pro forma plant) that will be completed by the estimated time of ORS's audit.
- [g] The Return on Rate Base shown above is provided solely as a matter of information and convenience for the Commission and is not intended to reflect a request for this specific return on rate base (or any return on equity). Applicant will make its request for a return on rate base (and return on equity) by way of evidence to be introduced at hearing.

RE: Your e-mail of March 23, 2006 (copy enclosed)
List of Water and Wastewater Facilities
Carolina Water Service, United Utility Companies, Tega Cay Water Service

Dear Mr. Hoefer:

This letter affirms that these companies have valid DHEC permits to operate these systems. The only exception is that we show only NPDES permit SC0024716 (not SC0024715) for Chambert Forest.

I can be reached at 803-898-4157 or at debessjp@dhec.sc.gov.

Sincerely,

Jeffrey P. deBessonet, P.E., Director
Water Facilities Permitting Division

cc: Shawn Clarke
